SUMMARY

I am a Full Stack Web Developer with experience in building web applications. I work with HTML, CSS, JavaScript, React, Node.js, Express, and MongoDB. I enjoy solving problems and learning new skills.

I have completed projects that demonstrate my ability to develop web applications, create user-friendly interfaces, and ensure functionality across devices. I am looking to join a team where I can contribute to projects and continue to grow as a developer.

EDUCATION

Shri Shankaracharya Mahavidyalaya
Bachelor's Degree in Computer Science(B.Sc)
Aggregate : 72.6%
2021 – 2024

Vishwadeep Higher Secondary School
Completed mystudies in Science and mathematics domain
10th C.G.P.A : 9.41
12th Percentage : 83.4%

SKILLS

- **Frontend Development**: Proficient in developing dynamic and responsive web applications using technologies such as React, HTML, CSS, JavaScript, and TailwindCSS.
- **Backend Development**: Skilled in server-side development with Node.js and Express, enabling the creation of robust and scalable web services.
- **UI Frameworks and Libraries**: Experienced in using Tailwind, Styled Components, and React Router to enhance the user interface and user experience of web applications.
- **State Management**: Proficient in state management using Redux Toolkit,Context Api ensuring efficient data flow and a consistent application state.

PROJECTS

Chess.com clone

- Developed a real-time, multiplayer chess application that mimics the functionality of Chess.com.
- Technologies Used: ExpressJS, NodeJS, Socket.IO, chess.js
- Real-time game updates using WebSockets
- User authentication and game state management
- Integrated chess.js for chess logic and move validation

Amazon Clone

- Created a full-stack e-commerce platform inspired by Amazon, with functionalities for user management, product browsing, and purchasing.
- Technologies Used: MongoDB, Express, Node.js, React
- Features:
- User authentication and authorization
- Product listing, search, and filtering
- Shopping cart and checkout system

E-commerce Admin Dashboard (Shoppy)

- Developed a dynamic and responsive admin dashboard for managing e-commerce operations.
- Technologies Used: Syncfusion, React, Tailwind CSS
- Interactive charts and graphs for sales and user data
- User and product management
- Order tracking and status updates
